

World Light Art Forum

Using Light Art as a communication tool, you can...

Photo by Beat Pfändler

...display a polar bear in Antarctica

Light Art Expedition Antarctica 2003 - The United Nations International Year of Water. Illumination of icebergs at Paradise Bay.

Photo by Franco Greco

...show what is inside outside

Light Art Expedition Egypt 2006 - The United Nations International Year of Deserts. Illumination of the Pyramids of Gizeh, the Sphinx, the monuments in the White Desert and the National Museum in Cairo.

Photo by Marcel Giger

...communicate ceremonies and special events

Light Art illuminations in Switzerland, since 2003 at the Hotel Steigenberger Belvédère in Davos during the World Economic Forum.

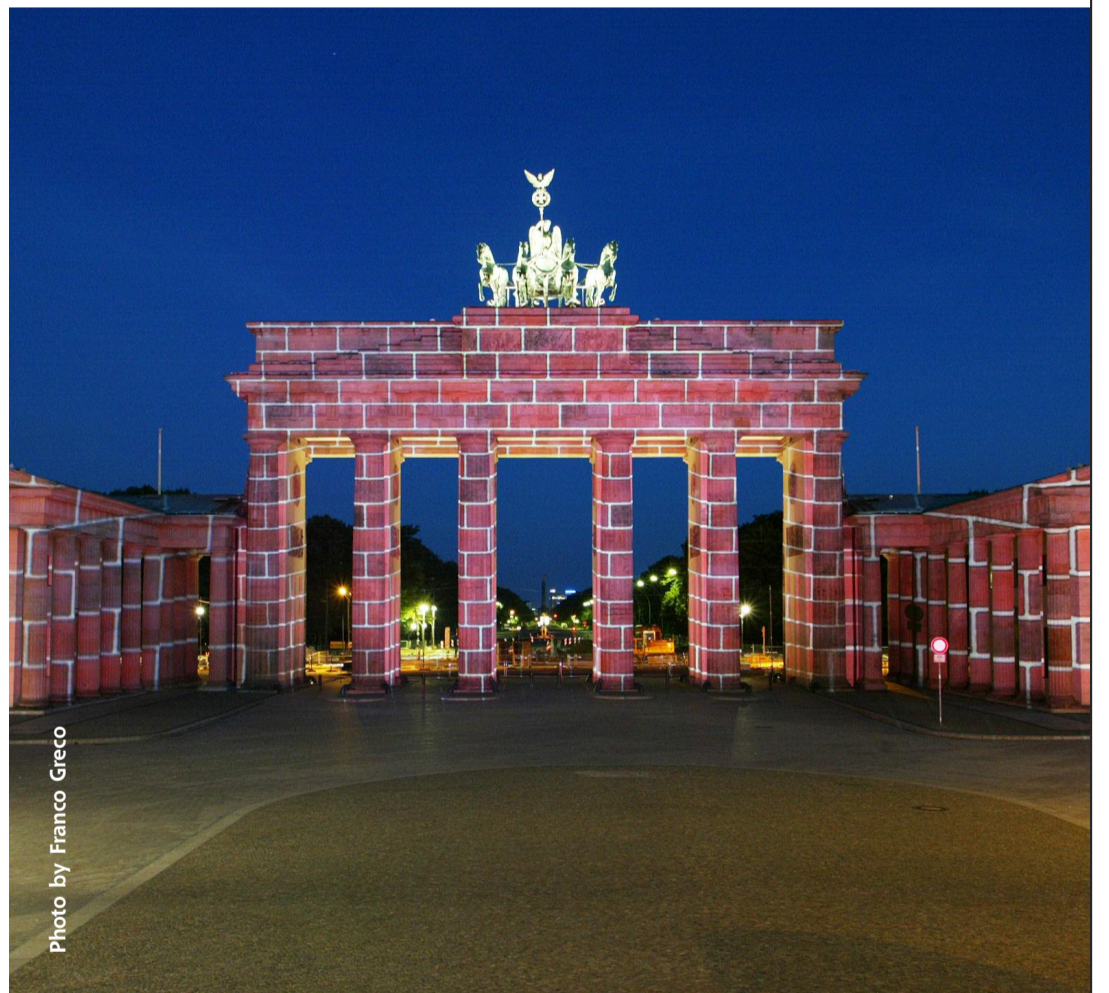

Photo by Franco Greco

...reflect history

Light Art performance in Germany in 2005 at the Brandenburg Gate in Berlin.

Whatever message you wish to communicate as a company, governmental organisation or institution, you should consider our planet and our environment. Light is the perfect instrument in this respect – it is clean, silent, flexible and highly individual, as well as sustainable in people's memories and on photographs and films. As marketing professionals, we understand you and your requirements. And as a light artist, I know the best way to express them.
